

Sennco has the solution for you

Sennco Solutions takes the time to understand your need and to determine the type of solution that will best fit your need. If the best solution is within our inventory, we'll manufacture it under quality-controlled conditions and ensure a well-manufactured product in a timely manner. If the best solution is not in our existing inventory, we invest in the proper research and development to design a solution that works best for your situation.

We work hard daily to bring new ideas in design, manufacturing, delivery and pricing to our customers. We consider ourselves a value-added vendor that thinks outside the box and is willing to earn your business.

Door Lock Security Systems

The Sennco door lock security series of products prevents unauthorized entry by providing a controlled access point resistant to tampering for both indoor and outdoor environments.

Sennco's line of stand alone battery lock (SABL) door security options adapt easily to fit your doorways, and allow restricted access to your industrial, commercial residential, retail, or hospitality environments.

SABL Stand Alone Battery Lock

SECURITRON

This stand alone battery lock offers effortless programming and proven quality in a sleek, low profile package. Based on the award winning and popular DK-26 Keypad, and offered in four architectural finishes, SABL is perfect for offices, cash rooms, pharmacy doors, and service desks — anywhere restricted access is required. SABL is also available with your choice of popular keyways, Best Compatible Arrow and Medeco KeyMark I-C core. The on-board CPU is mounted on the protected side of the door for higher security. Tampering with, or even destroying the keypad will not release the door. The keypad is weather-proof, permitting mounting indoors or out.

Features

Model # S8218

- Full replacement coverage via MagnaCare, Securitron's Lifetime Warranty
- 55 user codes, 2 passage codes and 2 lockout codes
- Stand alone and battery operated, 6AA batteries included last for over 100,000 cycles
- Based on the award-winning and popular DK-26 keypad, a breeze to program and operate
- Fits a standard ANSI 2-3/4" backset with minimal prep for easy installation
- Weather-proof keypad with true 10 digit functioning
- Yale "Freewheeling" clutch helps make SABL vandal resistant and prolongs the life of the lever
- Non-handed

CL5000 Stand Alone Battery Lock

CODELOCKS

The CL5000 Series electronic locksets are designed to provide the industrial, commercial, residential and hospitality marketplace with reliable, competitively priced, keyless entry with or without mechanical key override in interior or exterior environments. The CL5000 is designed for high-volume use in controlling access points. The on-board CPU is mounted on the protected side of the door for higher security. Tampering with, or even destroying the keypad will not release the door. The keypad is weather-proof, permitting mounting indoors or out.

Features

Model # S8230

- Lifetime Warranty from Codelocks
- Up to 90 user functionality
- Stand alone and battery operated, 4AA batteries included last for over 500,000 cycles
- Remote entry release, and unique 30 minute emergency release
- Can be ordered and installed "back to back" for 2-way security
- Available with both deadlocking latchbolt or with Grade 1 mortise chassis with latchbolt
- Fits a standard ANSI 2-3/4" / 70mm back set with minimal prep for easy installation (2-3/8" / 60mm also available)
- Weather-proof keypad with true 10 digit functioning
- Non-handed

eBOSS™ Stand Alone Battery Lock

Yale

The eBOSS E5400LN Series electronic locksets are designed to provide the industrial, commercial, residential and hospitality marketplace with reliable, competitively priced, keyless entry with or without mechanical key override in interior or exterior environments. The eBOSS E5400LN is designed for high-volume use in controlling access points. The on-board CPU is mounted on the protected side of the door for higher security. Tampering with, or even destroying the keypad will not release the door. The keypad is weather-proof, permitting mounting indoors or out.

Features

Model # S8231

- 3 year Warranty, and Lifetime finish warranty from Yale
