

# POWER & ALARM your products.

## The Solo-UC is a versatile power and alarm solution

designed to seamlessly complement your displays. This solution pairs a clean, appealing above counter presentation with an effective, economic under counter alarm. The Solo-UC protects your valuable merchandise while allowing the product to remain the star of the display. Equipped with Senncos patented QuickConnect USB technology, the Solo-UC enables retailers to power and alarm a device within seconds by simply plugging in the devices USB OEM power cable.
